ARTICLE I. BACKGROUND AND OBJECTIVES

- A. This Cooperative and Joint Venture Agreement (hereinafter called agreement) between the Bureau of Land Management, U.S. Bureau of Reclamation, U.S. Geological Survey, National Park Service, and U.S.D.A. Forest Service, (hereinafter

called Federal Agencies), and Northern Arizona University and its partner institutions is a continuation for a five (5) year term of the existing agreement for the operation and maintenance of the Colorado Plateau Cooperative Ecosystem Studies Unit (CESU). This continuation of the Colorado Plateau CESU is implemented by mutual consent of the parties and is consistent with the prior agreement and the express intent of the request for proposals for that agreement. The Colorado Plateau CESU is associated with a national network of CESUs.

B. The objectives of the Colorado Plateau Cooperative Ecosystem Studies Unit (CESU) are to:

- Provide research, technical assistance and education to federal land management, environmental and research agencies and their potential partners;
- Develop a program of research, technical assistance and education that involves the biological, physical, social, and cultural sciences needed to address resource issues and interdisciplinary problem-solving at multiple scales and in an ecosystem context at the local, regional, and national level; and
- Place special emphasis on the working collaboration among federal agencies and universities and their related partner institutions.

C. The Bureau of Land Management (hereinafter called BLM) administers public lands within a framework of numerous laws. The most comprehensive of these is the Federal Land Policy and Management Act of 1976 (FLPMA). All Bureau policies, procedures and management actions must be consistent with FLPMA and the other laws that govern use of the public lands. It is the mission of the Bureau of Land Management to sustain the health, diversity and productivity of the public lands for the use and enjoyment of present and future generations (43 U.S.C. 1701 et seq.). In accordance with 43 U.S.C. 1737(b), the BLM is authorized to enter into a cooperative agreement to continue the Colorado Plateau CESU to assist in providing research, technical assistance and education.

D. The U.S. Bureau of Reclamation (hereinafter called USBR) manages, develops, and protects water and related resources in an environmentally and economically sound manner in the interest of the American public (43 U.S.C. Chapter 12). USBR is authorized to enter into certain cooperative agreements in accordance with the authority delegated in 255 DM 14.1, which states that the Commissioner is delegated so much of the authority of the Secretary under the Fish and Wildlife Coordination Act, 16 U.S.C. 661 et seq., as is necessary to provide assistance, through grants or cooperative agreements, to public or private organizations for the improvement of fish and wildlife habitat associated with water systems or water supplies affected by Reclamation projects. In accordance with this authority, the USBR is authorized to enter into a cooperative agreement to continue the Colorado Plateau CESU to assist in providing research, technical assistance and education.

- E. The U.S. Geological Survey (hereinafter called USGS) serves the Nation by providing reliable scientific information to describe and understand the Earth, minimize the loss of life and property from natural disasters, manage water, biological, energy, and mineral resources, and enhance and protect our quality of life. In accordance with 31 U.S.C. 6302 et seq., 16 U.S.C.1a-2j, 16 U.S.C. 5933 and Secretarial Order No. 3202, the USGS is authorized to enter into a cooperative agreement to continue the Colorado Plateau CESU to assist in providing research, technical assistance and education.
- F. The National Park Service (hereinafter called NPS) is responsible for the management of areas in the National Park System to conserve the scenery, the natural and historic objects, and the wildlife therein and to provide for the enjoyment of the same in such a manner and by such means as will leave them unimpaired for the enjoyment of future generations (16 U.S.C. 1 et seq.). In accordance with 16 U.S.C.1a-2j and 16 U.S.C. 5933, the NPS is authorized to enter into a cooperative agreement to continue the Colorado Plateau CESU to assist in providing research, technical assistance and education.
- G. The U.S.D.A. Forest Service (hereinafter called USDA FS) mission is to achieve quality land management under the sustainable multiple-use management concept to meet the diverse needs of the people (16 U.S.C 1641-1646). In accordance with 7 USC 3318 (b) the USFS is authorized to enter into a joint venture agreement to continue the Colorado Plateau CESU to assist in providing research, technical assistance and education.
- H. Northern Arizona University (hereinafter called Host University) is a major university located on the Colorado Plateau. Located in Flagstaff, Arizona, Northern Arizona University (NAU) is in close proximity to 33 national parks or monuments, 17 national forests, 26 wilderness areas, various BLM lands, and reservations of several Native American nations. In accordance with its long history of providing research and support for land management agencies, NAU has also focused on educating and training undergraduate and graduate students for positions in land management agencies on the Colorado Plateau. NAU is a doctoral research intensive university offering a broad spectrum of undergraduate degrees (95), 47 masters degrees, and the doctorate in 9 fields. NAU enrolls over 18,000 students, with about 13,000 in Flagstaff and the remainder in the 30 statewide sites throughout Arizona.
- I. The partner institutions to the Host University include Arizona State University, Colorado State University, Diné College, Fort Lewis College, Haskell Indian Nations University, New Mexico State University, Oregon State University, University of Arizona, University of Nevada-Reno, Utah State University, The Arboretum at Flagstaff, Museum of Northern Arizona (hereinafter called Partner Institutions).

2. The results of any cooperative studies may be used in developing theses in partial fulfillment of requirements for advanced degrees and nothing herein shall delay publication of theses.
3. Individual modifications shall include specific plans for data management, sharing, and archiving, as appropriate.
