ARTICLE I. BACKGROUND AND OBJECTIVES

- A. This Cooperative and Joint Venture Agreement (hereinafter called Agreement) between the Narragansett Indian Tribe, a sovereign nation, the Bureau of Indian Affairs, Bureau of Ocean Energy Management, National Park Service, U.S. Fish and Wildlife Service, U.S. Geological Survey, Natural Resources Conservation Service, National Oceanic and Atmospheric Administration, Office of the Assistant Secretary of Defense for Energy, Installations, and Environment, and U.S. Army Corps of Engineers–Civil Works (hereinafter called Federal Agencies) and the University of Rhode Island (Host University) and its Partner Institutions is a continuation for a five (5) year term to provide for the operation and maintenance of the North Atlantic Coast Cooperative Ecosystem Studies Unit (CESU). This continuation of the North Atlantic Coast CESU is implemented by mutual consent of the parties and is consistent with the prior Agreement and the express intent of the request for proposals for that Agreement. The North Atlantic Coast CESU is associated with a national network of CESUs.
- B. The objectives of the North Atlantic Coast Cooperative Ecosystem Studies Unit are to:
- Provide research, technical assistance, and education to federal land management, environmental, and research agencies and their potential partners;
 - Develop a program of research, technical assistance and education that involves the biological, physical, social, and cultural sciences needed to address resources issues and interdisciplinary problem-solving at multiple scales and in an ecosystem context at the local, regional, and national level; and
 - Place special emphasis on the working collaboration among federal agencies and universities and their related partner institutions.
- C. Bureau of Indian Affairs. The Bureau of Indian Affairs (hereinafter called BIA) is the oldest bureau of the United States Department of the Interior. Established in 1824, BIA currently provides services to approximately two million American Indians and Alaska Natives. There are 574 federally recognized American Indian tribes and Alaska Natives in the United States. The mission of the Bureau of Indian Affairs is to: "... enhance the quality of life, to promote economic opportunity, and to carry out the responsibility to protect and improve the trust assets of American Indians, Indian tribes, and Alaska Natives." BIA has responsibility for the administration and management of 55 million surface acres and 57 million acres of subsurface minerals estates held in trust by the United States for American Indian, Indian tribes, and Alaska Natives. BIA serves a special role, both serving tribes through trust management and by providing technical support and advice across a broad range of topics. The BIA is also the lead agency providing for federal management of the trust corpus held on behalf of tribal government and individual beneficial owners and as such is tasked with coordinating science, technical education, and management

needs for those trust resources. The tribes, through the Indian Self-Determination and Education Assistance Act of 1975 (Pub. L. 93-638), are authorized to contract BIA management functions and as such mission needs, research results, and education efforts serve and enable tribal and BIA staff. The Act also authorized the federal government to follow specific contracting regulations for Recognized Federal Indian Tribes, and with tribal approval, tribally chartered Indian colleges and universities.

BIA participation in the CESU Network will include support, coordination, and cooperation focused on science and education for climate and trust resource management, as well as other areas within its range of mission-related services and activities. BIA is authorized to enter into cooperative agreements under the general authority for climate change via the Snyder Act of 1921, as amended, 25 U.S.C. § 13; for FY14 (2-year funding) via Pub. L. 113-76, and FY15 (2-year funding) via Pub. L. 113-164, as amended (and subsequent annual budget appropriations as may be authorized during the term of the agreement); and for any potential Forestry and Wildland Fire Management program efforts, via the National Indian Forest Resources Management Act of 1990, Pub. L. 101- 630. BIA has the authority to enter into this agreement pursuant to 25 U.S.C. § 2; the Education and Training Program, 23 U.S.C. § 6004; and Snyder Act of 1921, as amended, 25 U.S.C. § 13.

- D. Bureau of Ocean Energy Management. The Bureau of Ocean Energy Management (hereinafter called BOEM) oversees the exploration and development of oil, natural gas and other minerals and renewable energy alternatives on the Nation's outer continental shelf. BOEM continues to look for better ways to serve the American people and to ensure that the Nation receives the best value for its resources now and into the future. The program not only supports decisions made within the Department of the Interior, but also provides other Federal regulators, and the coastal states, and local governments with the information necessary to ensure that all stages of offshore energy and mineral activities are conducted in a manner to protect both the human and natural environments. Outer Continental Shelf Lands Act (OCSLA) (43 U.S.C. §§ 1331-1356) Section 1346 mandates the conduct of environmental and socioeconomic studies needed for the assessment and management of environmental impacts on the human, marine, and coastal environments which may be affected by oil and gas, renewable energy or mineral development. OCSLA Section 1345 authorizes the use of cooperative agreements with affected States to meet the requirements of OCSLA, including sharing of information, joint utilization of available expertise, formation of joint monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer continental shelf operations both onshore and offshore. With OCSLA and additional authorities as listed BOEM can enter into cooperative agreements public colleges and universities, research scientists, Federal, State and local decision-makers, Native American Organizations, not-for-profit organizations within the affected states.

Authorities list:

- (a) The Fish and Wildlife Coordination Act, as amended (16 U.S.C. 661 et seq.), which authorizes the Secretary of the Interior to enter into agreements with Federal and State agencies to assist in the protection of fish and wildlife and their habitats.
- (b) The (OCSLA) Amendments of 1978, 43 U. S. C. 1346, which established a policy for the management of oil and natural gas in the Outer Continental Shelf (OCS) and for protection of the marine and coastal environment. The amendments authorize the Secretary of the Interior to conduct studies in areas or regions of sales to ascertain the “environmental impacts on the marine and coastal environments of the OCS and the coastal areas which may be affected by oil and gas development.” Per 43 U. S. C. 1346(c.)...”For the purpose of carrying out the responsibilities under this section, the Secretary (of the Interior) may by agreement utilize, with or without reimbursement, the services, personnel or facilities of any Federal, State or local.
- (c) [Under Section 19\(e\) of the OCS Lands Act \(Public Law 95-372\)\(43 USC 1345\)](#), it states:
 “The Secretary is authorized to enter into cooperative agreements with affected States for purposes which are consistent with this Act and other applicable Federal law. Such agreements may include, but need not be limited to, the sharing of information (in accordance with the provisions of section 26 of this Act), the joint utilization of available expertise, the facilitating of permitting procedures, joint planning and review, and the formation of joint surveillance and monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to Outer Continental Shelf operations both onshore and offshore.”
[Section 201\(f\) of the Act \(43 USC 1331, 1335\)](#) contains this definition of “affected State:” “Affected State” is generally interpreted to be any coastal state and public universities are considered to be an extension of the state.
- (d) [The “Marine Mineral Resources Research Act of 1996” \(Public Law \(P.L.\) 104-325\)](#) gives the Secretary (DOI) the authority to “...award grants or contracts to, or enter into cooperative agreements with, eligible entities to support research...”
[Section 1471\(f\) of the Act \[43 USC 1471\(f\)\]](#) lists entities eligible to receive CAs as “colleges and universities, State agencies, and nonprofit organizations.” Eligible – affected States, their agencies, and their public universities and non-profits in affected States. Not Eligible – private universities, entities in non-affected States, or their agencies and universities.
- (e) The National Environmental Policy Act (NEPA), 42 U. S. C.4321-4347, which requires that all Federal agencies use a systematic, interdisciplinary approach that will ensure the integrated use of the natural and social sciences in any planning and decision-making that may have an effect on the human environment.
- (f) 43 U.S.C. 1345 (e); 43 U.S.C. 1346 Section 20.
 State agencies, public universities, and non-profits in affected states may apply. More than one institution may collaborate in the preparation of an application for assistance. Scientists from other institutions may participate in collaboration with a principal investigator from a State agency or public university.

- a) Under the Use of Cooperative Agreements authority (43 U.S.C. §1457b), to enter into cooperative agreements with a state or political subdivision (including any agency thereof), or any not-for-profit organization if: (1) the agreement will serve a mutual interest of the parties to the agreement in carrying out the programs administered by BOEM; and (2) all parties will contribute resources to the accomplishment of these objectives
- (g) Under the Take Pride in America Act (16 U.S.C. §§4601-4608), to establish and maintain a public awareness campaign, in cooperation with public and private organizations and individuals, to instill in the public the importance of the appropriate use of, and appreciation for, Federal, state, and local natural and cultural resources. Research scientists, Federal, State and local decision-makers, Native American Organizations, and the general public will ultimately benefit from the program.

In accordance with the aforementioned authorities, BOEM is authorized to enter into this cooperative agreement to continue the North Atlantic Coast CESU to assist in providing research, technical assistance, and education.

In support of this broad mission, the Secretary of the Interior “shall ensure that management of System units is enhanced by the availability and utilization of a broad program of the highest quality science and information” (54 U.S.C. § 100702), and “shall enter into cooperative agreements with colleges and universities, including land grant schools, in partnership with other Federal and State agencies, to establish cooperative study units to conduct multi-disciplinary research and develop integrated information products on the resources of the System, or the larger region of which System units are a part” (54 U.S.C. § 100703). The NPS is authorized to enter into cooperative agreements with public or private educational institutions, States, and their political subdivisions, for the purpose of developing adequate, coordinated, cooperative research and training activities concerning the resources of the National Park System (54 U.S.C. § 101702(b)); with State, local and tribal governments, other public entities, educational institutions, and private nonprofit organizations for the public purpose of carrying out National Park Service programs (54 U.S.C. § 101702(a)); with State, local, or tribal governments, other Federal agencies, other public entities, educational institutions, private nonprofit organizations, or participating private landowners or individuals for the purpose of protecting natural resources of units of the National Park System through collaborative efforts on land inside and outside of National Park System units (54 U.S.C. § 101702(d)) or to investigate, protect, preserve, maintain, or operate any historic or archeologic building, site, or object of national significance (54 U.S.C. §§ 320101-320103); and with any State or local government, public or private agency, organization, institution, corporation, individual, or other entity for the purpose of sharing costs or

services in carrying out authorized functions and responsibilities of the Secretary of the Interior with respect to any unit or program of the National Park System, any affiliated area, or any designated National Scenic or Historic Trail (54 U.S.C. § 101701).  - ii Individuals exempted from the minimum wage requirements of the FLSA under 29 U.S.C. § 213(a) and 214(a) and (b), unless otherwise covered by the Service Contract Labor Standards statute, or the Wage

- (c) Those employed in a bona fide executive, administrative, or professional capacity (29 U.S.C. § 213(a)(1) and 29 C.F.R. § part 541).

- (5) Nothing in this clause limits or otherwise modifies the Recipient's payroll and recordkeeping obligations, if any, under the Service Contract Labor Standards statute, the Wage Rate Requirements (Construction) statute, the Fair Labor Standards Act, or any other applicable law.
- f) *Access.* The Recipient shall permit authorized representatives of the Administrator to conduct investigations, including interviewing workers at the worksite during normal working hours.

Such disputes shall be resolved in accordance with those. This includes disputes between the Recipient (or any of its Subrecipients) and the contracting agency, the Department of Labor, or the workers or their representatives.
- i) *Antiretaliation.* The Recipient shall not discharge or in any other manner discriminate against any worker because such worker has filed any complaint or instituted or caused to be instituted any proceeding under or related to compliance with the E.O. or this clause, or has testified or is about to testify in any such proceeding.
